

Kalkaska County Road Commission Report

12/14/2023

I inquired about Riverview Road and its condition with Manager John Rodgers and the Road Commission Board. I asked if there were any plans or considerations to resurface Riverview Road.

John Rodgers response was the repair needed would be an overlay as opposed to a chip seal procedure. The response was the road has deteriorated beyond the fix of a chip seal. He said there are no plans to make repairs of Riverview Road.

He also stated the new Paser Ratings would be sent to the Township for review. This will show the current conditions of our roads.

I asked about the status of repair on East Bear Lake Road, on the shoulder that has been broken for over a year. I informed John of the location on the curve on the southbound side, by the small brown cabin. He wrote it down, and I will continue to inquire if it is not repaired in a timely matter.

The Road Commission Board has moved forward to place the Bond Proposal on the ballot at an unknown time. It is unclear of changes from the original Proposal that was defeated in November.
